

INSTITUTE OF GLOBAL HEALTH EQUITY RESEARCH

1

RESEARCH

We are motivated to take a lead in evidence-based research to improve the way healthcare services are being rendered across Africa and beyond.

2

EQUITY

As an institute, our research generates new and important knowledge and findings for advancing social justice and equity for all.

3

IMPACT

Our institute believes that positive impact can be achieved, & improvements of health outcomes can be attained by disseminating meaningful research findings to inform global health actors about pressing global health issues.

4

INNOVATION

As we are rooted in the African reality, we are committed to come up with innovative and durable solutions to address global health issues.
